

## Phase 2 EER to Relational Mapping | CS 6400 - Spring 2023 | Team 098

Household

<u>Email</u>	Postal Code	Square Footage	Home Type	Cooling Thermostat Setting	Heating Thermostat Setting
--------------	-------------	----------------	-----------	----------------------------	----------------------------

Utilities

<u>Email</u>	<u>Utilities</u>
--------------	------------------

Appliance

<u>Manufacturer</u>	Model Name	Email	Type
---------------------	------------	-------	------

ApplianceType

<u>TypeName</u>
-----------------

Power Generator

Generation type	Average Kwh	Battery Storage	Email
-----------------	-------------	-----------------	-------

Water Heater

<u>Manufacturer</u>	Model Name	Capacity	Temperature Setting	BTU Rating	Energy Source
---------------------	------------	----------	---------------------	------------	---------------

Air Handler

<u>Manufacturer</u>	Model Name	Method	Email
---------------------	------------	--------	-------

Air Handler Method

<u>MethodName</u>
-------------------

Air Conditioner

<u>Manufacturer</u>	Model Name	Energy Efficiency Ration
---------------------	------------	--------------------------

Heater

<u>Manufacturer</u>	Model Name	Energy Source
---------------------	------------	---------------

Heat Pump

<u>Manufacturer</u>	Model Name	Seasonal Energy Efficiency Ratio	Heating Seasonal Performance Factor
---------------------	------------	----------------------------------	-------------------------------------
